IN THE SPECIFICATION

Replace the paragraph beginning at page 15, line 24 with the following paragraph:

The data network 124 consists of, but is not limited to, a local area network (LAN). The LAN may connect to a plurality of other similar remote LANS to form the WAN. The LANS are connected to one another via routers or other WAN connections. The WAN may furthermore be connected by a frame relay connection which is a telecommunication service designed for cost-efficient data transmission for intermittent traffic between LANs and between end-points in a
